I love Kara Kings' books. Her writing is so down to earth and makes a lot of sense. There are things that I haven't thought about but as you read the book, there are many light bulb moments. Between part one and part two she covers all of the bases of relationships. I would indefinitely recommend this book for women who are married, single, divorced, living with someone or just starting to date. Between the two books Kara says all the thing a mother wants to tell her daughter about men and

Kara King has done it again, with a second incredibly empowering and inspiring book for all women. She is not afraid to tell it like it is and shoot strait from the hip. Players beware! Forewarned is forearmed! Great job Kara

I really was surprised by how great this book is. I expected psycho-babble or some other type of nonsense....however, I ended up with a fun, cheeky read with insights that I will definitely be passing on to my daughter. Oh and I'd absolutely buy that t-shirt, Kara.Cheers!

Great book! Many young women need to know this stuff before they are played and turned into bitches! Highly suggest to read this book if you need a (shortcut in life) and don't want to waist years to find out all this on your own!!

I don't really know what to say other than it is one woman's take on how to be the best female possible. Entertaining.

Highly recommend this book. I couldn't stop reading it! It says it like it is. Can't wait for more books from this author.

Worth the read. I sped right through it

My wife purchased this book, I'm personally not a fan of the name, but she said it was great ... wait, should I be worried here ;-)
