Better than I expected..

This is a coffee table book, it is probably 12 x 12 with lots of pictures on every page. It is fun to run through but don't think you're getting any in-depth information about Walt. The information is basically recycled and abbreviated from other books with pictures added.

great story for a great man

Excellent historical book. Gives a lot of insight into Walt Disney the man and how he created the Disney product we know today. Wonderful pictures. Growing up near Disneyland I never really knew much of the background of the company. Now that I've been a cast member for many years, the

history of the company has grown into a passion. This is a must have book to add to your Disney library.

I love this book. I bought it for a friend and myself.

I found that this book gave me a real insight into Walt Disney. There were some pretty incredible facts, and it was written in a very readable fashion.

Great book if you love Disney

This book is so much better than I thought it would be. It is a must for every Disney fan.
