Customer Reviews

Just what we needed!

I only found two duets that could be used for high school contests. Most were not appropriate or not interesting.

I ordered this book based on the editorial review that indicated it would be good for middle school

aged students and up. I am really disappointed. While it most certainly is a good book for college and up, there are so many sexual or sexualized references throughout these scenes that there is no way I would bring it into a middle or high school setting. If you have the time to do a lot of cutting it might work, but frankly I was hoping for a book that I could just use as is. This isn't it!
