No BioNo Bio

Great for our Mining and Gemstoning trips.

The five star rating reflects the quality of the product and the timeliness in which it was shipped. It was ontime and the image displayed in the advertisement was exactly what i received. The item I wanted is what I got. I would reccomend the product to anyone interested in this product line. I was not dissapointed.

Very well written, easy to understand. I use it regularly

Great reference book, good photos and details

This book has every rock imaginable in it. I like the way it has colored pictures of each rock too. It helps to identify the rocks you have. Great price and investment for the rock collector.

For a beginner like me. Awesome book. Lots of pictures as well as information and classifications. Two thumbs up.

Great book!

Nice photo illustrations.
