Disney's "Cinderella is the classic story of a beautiful girl, her evil stepmother and stepsisters, and the fairy godmother who helps her meet the prince of her dreams. "From the Trade Paperback edition.

This book only has the Cinderella story up to the point where the animals help Cinderella in the house with the cleaning. Nothing about the party, the prince, the wedding or any of the good parts of the story. It was like Cinderella chapter 1.

I love these books. It's pretty beautiful and looks great with a stack of books. I got this for a Cinderella-crazed adult, and it's just cute enough to work.

This is the classic story I remember as a little girl. Some of the newer books have a different storyline. I used this book as the guest sign-in for a princess baby shower. Then the mother-to-be would be reminded of her shower when she reads the book to her daughter. Many of the pages had white background which made the notes and signatures of guests easy to read. The newer books' pages were dark and signatures would have been difficult to read. I prefer the hard cover, as well, for protecting the pages within. The newer books have soft covers.

I purchased this book because I enjoyed it going up and I read it to my children. Now I'm a grandma and decided to start reading to my grandchildren and they love it, what surprised me the most is the price of this used (NEW) book, it wasn't used at all and I was able to personalize this book with their names in it so now they smile saying read my book. This was one of many books I've purchased and love so much. I have recommended this to my children for home collections. Even their cheap selves can afford this. Thank you so much

The little golden books are an inexpensive way to bring the wonder of the classic Disney stories to children through reading. These are great stories that hopefully give a child the gift and enjoyment of reading.

We love golden books! Great Disney classic for my 2 year old to thumb through. We actually keep a stack of these in the car and she looks through them time and time again!

I was very excited to find Little Golden Books available on my Kindle at such an affordable price. The story shows up when you turn the Kindle on its side (like when viewing a movie,) and the pictures were exactly as I remembered from reading the same book when I was young. It is wonderful to be able to read the same stories I grew up loving while using my Kindle, a device that attracts the children of today, and share my enjoyment of books with the young children in my home.

I'm giving this two stars because the storyline is very weak and doesn't highlight the classic parts of the story well; additionally or as a result, the still photos / pictures inside are not from the best parts of the movie. Example, the dress making by the mice is not included. Details from the fairy godmother using her magic are not included. It's just not a great book and not what I expected
