Customer Reviews

This was everything (and more) that I wanted to know about treasure hunting. I was surprised by the various levels of treasure hunting, the unusual locations listed, and also finding things that are of no intrinsic value but have historical interest. Hopefully, this will be a hobby that my husband and I can share for years to come.

Lots of good advice and some very helpful tips.

given as a retirement gift to co-worker. she hhad already been metal decting but found a lot more info in this book

I already had several of his books which I've read several times, a really good writer an story teller who has lived the life of a treasure hunter. Any of his books are worth getting.
