McGraw-Hill authors represent the leading experts in their fields and are dedicated to improving the lives, careers, and interests of readers worldwide

A great resource for studying Hebrew, especially for children. The format of listing objects and their

corresponding Hebrew words separately, and then incorporating them into larger picture which functions as a "quiz" is excellent. Recommended!

great book not only for children but for adults who need to increase Hebrew vocal. As the author writes it is a good way to learn Hebrew words about the most common words that can help one understand and speak the language of the land.

The words are organized according to subject. The best part is they have a glossary in the back in both English and Hebrew, so it's easy to look up words in either language. HIGHLY recommend this for all new students to help with learning.

Best children's Hebrew English dictionary I've ever seen!!!

My boyfriend is pretty advanced in Hebrew and even has students he teaches. This book had a few words that even he didn't know and his students enjoy learning with it. I would recommend it!

WONDERFUL!!!! This is such a fantastic book!! Great illustrations! Translations and transliterations are all together in one place. It also includes a good amount of action verbs (look, read, write, sleep, etc.). This is fantastic to read to your children or even adults!

Love this dictionary! It makes my learning Hebrew easier and enjoyable, as though I'm an adult, learning in a childlike manner allows me to understand the concept of the letters and words!

A lot like the Usborne series: Various "scenes" are shown (inside the house, on the farm. All the items in the scene are displayed along the side of the picture, and labeled with the Hebrew spelling, the pronunciation and the English translation. In addition to the English-Hebrew Glossary and Index, there also is a really nice feature: a TRANSLITERATED Hebrew-English Glossary and Index, so if you are looking for words that begin with a particular Hebrew sound, you can look up the word (and page number) that way.
