Christian Ethics: A Case Method Approach 4th Edition (New Edition (2nd & Subsequent) / 4th Ed. /)

Synopsis

The case method approach, effective in disciplines from law, forms the backbone of this classroom-proven work. Designed specifically for undergraduate courses this latest revision includes ten new cases on immigration (connection with global poverty), homelessness and foreclosures, water, ethical issues in the workplace, closing hospital emergency rooms, living together v. marriage, gay marriage, and physician-assisted death. Several cases have been dropped and the remaining cases have all been updated to keep the book contemporary with real life issues, for productive discussion and fruitful learning.

Stivers explains things in an easy to read and comprehend manner.

Up to date current case studies, compliments the classroom room discussions. A good book to have even if you are not taking an Ethics in Religion course.

Excellent source for what to do when dealing with others and sometimes, what underlying reasons are for behaviors, how to coin the existence of some actions.
