Money Matters For Kids

Synopsis

Children need to be taught the importance of stewardship at a young age, but giving them financial advice that's too complex can overwhelm and discourage them. In *Money Matters for Kids*, financial author and teacher Larry Burkett provides fun and creative tools to help children understand and apply the biblical concept of stewardship. It contains jokes, puzzles, and other fun activities and exercises that make it easy for parents to teach children godly money-management principles. The time has come for children to know that all we have has been given to us by God and belongs to him. The vision of *Money Matters for Kids* is to provide the tools needed to help children and teens understand and follow biblical principles of stewardship.

LARRY BURKETT (1939-2003) was a well-known authority on business and personal finance. He wrote more than seventy books, including non-fiction bestsellers like *Family Financial Workbook*, *Debt-Free Living*, and *The World's Easiest Guide to Finances*. He also had a worldwide radio ministry. Larry founded Christian Financial Concepts and served as Chairman of the Board of Directors of Crown Financial Ministries®. He is survived by his wife, Judy, four grown children and nine grandchildren.

I appreciate this written from a Christian perspective. Like the little quips for these young minds. Short attention spans so the lighter side gets to a point quickly. Will enjoy this book for years to

come with my grandchild.

Purchased as a supplement for more practical world knowledge that schools are not covering. Not help full beyond scripture quotes. Highly disappointed.

This is a good read aloud book for parents and kids to share. It has sound money principles and would provide a springboard for discussions of how to handle different money situations. I would recommend this book for parents of elementary students.

This book was thinner/shorter than I was expecting, but it is still a great resource for teaching financial accountability and stewardship. My 10 & 11 year old sons liked it.

Good purchase.

We bought this book to help teach our 7 year old how to manage her money. Where the book met expectations were the areas of values and healthy ways to think of money : Money isn't ours. We're stewards of God's money and therefore, we should spend it wisely, etc. Where it didn't meet expectations, is that it didn't really provide a sample plan for how to allocate resources. While certainly, the greatest issue in dealing with money is mental -- getting your head around the idea that you have to live within your means and that you don't have to have everything NOW or just because someone else has it -- there is also a need for concrete examples.... Given the above problem, I would still recommend this book as something to work through with a child because those psychological issues about spending are significant enough that they can make the difference between a someday adult with healthy attitudes about money and someone who is in debt, unhappy yet still wanting MORE! In that respect, this book is aces.

My husband and I were looking for a book to help our children, ages 8 and 5, understand the concept and value of money. We had started an allowance but felt like they were more eager to spend the money than to care what it was spent on and when it was lost they didn't really care. We have since stopped the allowance and decided to go through this book first. We feel that this book is a wonderful resource to teach Christian principles to children, such as stewardship (what we own is a gift from God and we need to take care of it), giving, being content, and spending wisely. I don't believe the book is geared toward teenagers, but instead toward the younger child. It is written in an

engaging way, using a cat named Larry to tell stories and impress principles. Each chapter ends with a short Bible study as well. Both of my children have enjoyed and benefited from the content so far. I'd recommend it to anyone wanted to teach Biblical principles to their children regarding money.

Great money principals for kids! This book gives Biblical principals on how to handle money and does it in a fun way.
