These are great biographies - filled with silly cartoons, real artwork images and an easily approachable biography that kids can relate easily with. I have found other curriculums that use these books as the "reading" source and I'm really pleased with these books. I love that my kids are learning about the works greatest artist.

We bought a couple of these for our 8-year-old nephew who has an interest in art for his birthday on a recommendation from a friend. His mom said he loved them & continues to read them.

I have bought these books for my classroom. I teach Pre-K. The three of the books are higher than Pre-Kindergarten level but I think if you want to introduce an artist and his art; you can modify your

lesson while using these books.

love the information and photos in here. Monet's true colors are portrayed in this very well written book about him. Very easy to digest and has beautiful prints. Would recommend!

Got for my 10yr old who loves art. Written to relate on kids level with lots of factual information. He really enjoys it.

These books are wonderful for boys! They are kept interested and find them fun and easy to identify with. The author takes, what is normally a boring subject, and makes it great!

Great book and resource for our homeschooling artist unit.

Ironically I had no idea this was a kids book, but my niece loved it when u gave it to her.
