Saw this book at a friends house and had to have it. Beautiful pictures, I am Portuguese and can't wait to try some of the recipes!

This cookbook is beautiful enough in side and out that it could be a coffee table book, but don't let

that fool you. It is chock full of wonderful recipes and some of them quite easy and most ingredients are either readily available or not too hard to find at a specialty market, and I'm pretty much a novice.

Good book at a great price. I thoroughly enjoyed it. I will do business with this merchant again.

Amazing cookbook, easily one of my favorites.

We entertain a lot and all of the recipes have been so well received. I bought one for my daughter as well,

My bf and I are Spanish and Italian and we love cooking together with the recipes contained in this cookbook!

Love this collection

Though some of the most interesting food in Western Europe comes from the Iberian peninsula, relatively little is known in the U.S. With a broad mixing of flavors from northern Africa, the Middle East, and Asia, this cuisine is far more diverse in its attitude, ingredients, and textures than its European counterparts. I've tried several of the recipes almost all with good success. The one fatally flawed recipe: seafood fideo, which allowed a miniscule 10 minutes cooking time for raw artichoke hearts. On these your heart really will choke.
