Beautifully drawn gemstone's to color! I love all the patterns and hope to perfect my gemstone coloring techniques or at least see improvement with them. Enjoyable

I like the Jewelry aspect.. fun to color the Gems!

Â Paperback, Glossy cover. Dimensions: 8.5 x 11 inches. Non-perforated pages, Glue bound on left. 20 Single sided illustrations. Paper weight, medium, #60. Includes tester pages, artist info page with social media contacts and copyright. Good for all skill levels and ages. This is the 6th book in the Color-A-Creation series. Designed with the gem lover in mind. It contains 20 hand drawn, original illustrations. Images have a balance of open spaces mixed with smaller detail. There

shouldn't be any difficulty for those with vision or dexterity problems. You can use most coloring medium on this. Use blotter pages if using markers to prevent bleed through damage to the next page. If using watercolors, it is advisable to copy to heavier weight paper that can hold up to the water application. Mixed media paper, watercolor paper, or 110# card stock works great. This is standard to this weight of paper. Only reason for 4 star instead of 5, is I like to frame my work and about 8 pages, the illustration is at the top of the page instead of centered, which makes framing more difficult. For those who only color, this will not be an issue, as the images are large and beautiful.

Â I am so thrilled with this book! Not only does it provide ample space to practice coloring gemstones, it also has some amazing designs that, if I'm being honest, I would LOVE to wear for jewelry! LOLMs. Rose also provides some basic gemstone tutorial videos on her YouTube channel, so that's a huge bonus for beginners. The designs range from simple to difficult and are all beautifully hand-drawn (not computer generated, which is a HUGE plus in my book!) I'm looking forward to more fabulous gemstone designs from Amanda, because once you learn how to color them, that becomes all you want to color! ;) Great for people of all ages, all skill levels... even if you can't master the "perfect gemstone," you can still use these designs to make some really awesome coloring pages! Just color it how YOU want to! :)
