## Synopsis

“This book is packed with really wonderful mind sets, reframes, and psychology tips, all backed with references and real science. This is like the “best of the best” self help tips.” Tim Brennan, Author of ‘1001 Chess Tactics’ “Incredibly useful book filled with scientifically backed advice on how to successfully reach your goals.” Ryan Berd, How Successful People Think Differently

Why is it that some people are able to achieve so much success - in their personal, professional, social lives - whereas so many others are struggling? What are successful people doing differently from the failures? Are successful people wired differently from the rest of us? Is success simply encoded in their DNA? Or is it something else? And the more important question is: How can we get access to the magic ingredient that successful people have and add it to our own lives so that we too may experience more success in our lives? Learn how Successful People Think Differently - and How You Can Too. This short and practical guide will inspire you to rethink how you set and achieve your goals.

In How Successful People Think Differently you will learn:

- Why successful people say “I don’t” instead of “I can’t”
- Why successful people never suppress their desires - and what they do instead
- How successful people think smart
- The “if-then” strategy that triples your chances of achieving success
- The type of thinking that makes successful people successful in the first place
- The wrong (and the right) way to visualize your goals (this alone will be worth the price of the book!)
- The right (and the wrong) type of thinking that either sets you up for success or failure
- Simple, and sometimes surprising, success principles to help you achieve your goals
- And a lot more...

Based on Intensive Scientific Research: Learn the Science of Success

In the last 100 years, science has made remarkable progress in unlocking the secrets behind successful people. Unfortunately, a lot of this great, life-changing research is hidden inside dense, boring, hard-to-read academic literature. Fortunately, I’ve gone through that research for you - and in this success guide, you’re going to be getting access to life-changing tools and strategies that are scientifically-proven to help you achieve your personal and career goals, whatever they may be.

Just One Idea...Just one idea in this book might be the inspiration and the spark of change you are looking for...just one idea can change your life.

RAVE REVIEWS FROM READERS:

## Customer Reviews

How Successful People Think Differently is a quick, easy read packed with practical tips and

easy-to-follow advice. There are a few things which stand out in particular:- You are likely to finish the book. It is short and punchy - it won't lie around unread, like other self-help books often do.- You are likely to follow the advice. It is presented in an accessible format, with very clear, practical ways in which to excel.- You are likely to see results - the ultimate aim of the book. This book is for anyone who wants to aim higher.

This is one of those books that has all the important information without all the fluff. Easy to read with actionable steps at end of each chapter. Highly recommend everyone read this at least once.

Yes they do, and it's beneficial to know how they think. This book helps put those thoughts into perspective.

Short read, packed with very practical advice. Makes you think about how you're thinking. Not just opinions, the author backs up his points with research. Well worth the price. You'll get something useful out of it.

I love tony Robbins and all the rest, but these are fresh ideas from Akash. I like that fact that it is short. This is all 80/20. A long book on these same subjects makes it harder to just try out the principles today. So this is a great book - short, sweet and relevant!

If you are looking to quickly understand how to improve your chances of success, this is the book for you. Akash breaks down the process and shows you how can apply it as you move through the book while also giving you access to research material, if you are interested in learning more about any of the techniques. Highly recommend it for all entrepreneurs

Are you looking for a way to accomplish the goals that you have set for yourself? If you struggle at all with accomplishing your daily goals, this book provides an excellent starting point. The book also includes synopsis of many research studies, highlighting the author's points, with internet links to review the research. Excellent work!

Excellent advice packed into a quick, accessible read. The author is spot on with his ten steps and they apply to both professional and personal development. Highly recommend.
