STOLEN BY AN ALIEN: An Alien Mate Romance

Synopsis

AROKHI broke the rules and stole an auction item from her buyers. Because somehow, they'd managed to abduct a Gryfala princess. Though she doesn't look, or act, or sound quite like I thought one of her kind would. But I'm merely a Rakhii gladiator; this is the closest I've actually ever been to a princess. I'd be considered lucky indeed if she chose me to guard her. Instead, I want more. I need her to claim me. Because she doesn't know it, but now I can't let her go. ANGIE Woke up in a freaking auction pen. With no coffee. But there were aliens. And they didn't bid on me out of the goodness of their hearts. FML. Then this nice alien showed up in the nick of time, but he keeps referring to me as "Princess" and I'm starting to worry what he'll do when he finds out that there's been a little case of mistaken identity, that I'm not royalty - see, I'm not even whatever alien he mistook me for. I'm just a human. ****Content warning: For readers 18 years and older Contains explicit sexual situations, dark themes, sensitive subjects, and violence. Despite happenings inside this story not being entirely sunshine and roses, this couple gets their sweet Happily Ever After

Customer Reviews

Okay, so alien abduction isn't anything new. But Amanda Milo has developed a very interesting universe with much thought and a ton of originality. After reading way too many books through Kindle Unlimited, I have realized that many writers need an editor to help them out in writing a REAL novel of a decent length without being overly wordy without substance. This is a book that could get me so emotionally involved, I had to switch to another computer task just to get a breather. (It's very, VERY rare for me to experience this.) You really get to care about these characters even with life at the moment is always one danger after another. This is no two-hour read unless you are really good at speed reading. Speed reading isn't what I wanted to do. I wanted to read each and every word lest I miss something because there is a very good, believable progression of events with all sorts of surprises and twists. That's important in crafting a new and very different universe. Amanda Milo definitely took time in considering her universe, both the physical and the psychological aspects. It's one of the most believable novels that suspended my disbelief in over two hundred different reads. Though initially read via Kindle Unlimited, I quickly made it a permanent fixture to my Kindle library. I highly recommend you consider doing that, too. You won't regret it.

I wasn't going to buy this book. The cover didn't really grab me. However, I read the blurb for the second book in this series and thought huh..I want to read that may as well start with book 1. Again, typically, I am not a fan of books with a ton of new words/ideas/crazy new life forms etc. I really got into this book. I read it over the weekend and just truly enjoyed it and the idea/s behind it. This does have the make you feel warm and fuzzy but also the dirty truth behind life (just set in outer space). I bought book two and read it as well.

This book was very unique because it gave both perspectives of human and alien. It shows the good and bad in people. I liked most of the characters in this book. The earth women are pawns right now but slowly gaining respect and power. They are in a female ruling society but the rules are against the human female's mates. I liked this book and looking forward to reading future books in the series.

I really enjoyed both *Stolen by an Alien* and *Rescued by an Alien*. Ms. Milo deals with the inevitable PTSD sensitively, I cared what happened to the main (and secondary characters), and both stories were difficult to put down (ok, maybe I didn't put them down). Both stories come to a HEA conclusion, but of course you want to know more about the secondary characters too. I look forward

to Ms. Milo's next books in this world.

This story is a real standout...an action-packed space opera with an adorable hero and a feisty heroine. Milo does a great job of world building--she kept me riveted and eager to discover what kind of crazy would happen next. I laughed out loud at some parts and gasped in dismay at others. She's a talented writer, and I will gladly devour her other books. So happy to find a gifted writer in this genre.

I binge read both of the books in this series, I couldn't stop, they are just that good! first of all the alien hero LOOKS like an alien, not a human who happens to be a different color/red /blue/purple. the H and h are not able to speak to each other in the beginning of this book and it was still an engrossing read. the author lets us into the minds of both the H and h, we get the POV from both characters..... it makes the book more enjoyable. I can hardly wait for more in the series!

Wow! When I picked this up I was hoping for (at least) a decent story. It was so much more than that!! I stayed up way too late reading because I simply had to know what was going to happen next. I hope you are planning on continuing this series because I'm dying to know what happened to the blind girl and her dog! Thank you so much for writing such a unique and engaging book!!! I loved the fact that the aliens WERE aliens, not just alien people who look human. Great story :)

I'd rate this as a 3.5. It started out great. Love, love Arokh our H. Angie the h who is human was likable. The H thought the h was of another race that his kind needs to guard. Because of the language barrier, she only thought that the big alien was helping her out and leading her to safety. Finally H finds a communication device that allowed them to properly communicate. Along the way, the H/h develop a deeper connection that I find so sweet and hot.About 3/4 of the story is where the story kind of lost me. There were so many characters being introduced with different story lines. I guess the author was introducing to us the different characters for the next stories. But it was just to much at the same time. Overall though, I really like the story, kept me interested and happy that H/h had their HEA.
