# Sacred Scroll Of Seven Seals: The Lost Knowledge Of Good And Evil

## Synopsis

A National Science Foundation Award-Winning Author bumped into The Order of Skull and Bones when analyzing America's failed pill and heroin policies. Get this: "The Order" has been dealing dope in the same way, around the world, for ages. These policies aren't failing. They are working brilliantly. The Order is knowingly dispatching Americans for money. (Even cures to opiate and other addictions are being hidden.) Then, by cross-referencing leaked information such as rosters from Skull and Bones and Bohemian Grove, 'The Order's' veils of deceit fell to the ground, revealing the most vile bloodline of men who have ever strayed planet earth. After quite a bit more digging, he discovered a rare 200 year old book which was only meant for the eyes of the heirs of the Royal Family. The work details the genealogy of the Russell family and exposes the hoax most refer to as the "shadow government." In the 'little book,' Poet, Jeremiah Holmes Wiffen also sent us some coded warnings from the past (and even identified the Holy Grail). Wiffen was no conspiracy theorist. His carefully researched and cited book was chartered by John 6th Duke of Bedford to celebrate their Royal 'Order,' or, their 'race.' ('Duke' is the highest title in the Royal Bloodline outside the monarch) The Order of Skull and Bones appears to be a screening mechanism with which to separate the super-elite from us common "Vandals" at Yale; these men go on to manipulate every lever of power in the world. Every president is related to their "Order." The bone collector's who darken the halls of "The Tomb" are responsible for a LOT more than just dope-dealing, hand grips, acting out macabre plays in halloween getups, grave-robbing and public masturbation. (Don't forget, the likes of George Bush, John Kerry, Taft and multiple Kelloggs and Forbes - among countless others - were all from this wicked club). This book will answer a lot of questions which 'The Order' doesn't want you to know. Among them:- How the Civil War really began- How The Order killed a hundred-million people in a great genocide in India before THEY formed America- Who was really responsible for slavery (you will be SHOCKED!)- How the American Flag was really designed (hint: it wasn't 'Betsy Ross')- How Hitler really came to power and the Americans who funded him- It will solve the mysteries of the Great Pyramids- Tell you the esoteric secrets of archaeology- Exactly why those civilizations rose and fell- Where we are in that cycle of desolation and MUCH, MUCH MORE! The 'Little Book' connected these men to the Vikings, the Knights Templar, William the Conqueror, the Tudors, the Clintons, the Roman Catholic Papacy, and it even connects the vile clan to the Tribe of Dan in The Bible (the tribe which The Bible indicates will produce the Antichrist). Now, you may NOT believe in The Bible but these men DO and that is all that matters. This should scare you. Because they worship the dark one therein, and still practice necromancy among many more-deplorable rituals - including

ritual child sacrifice (â ^in effigy,â ™ supposedly). If you smell something rotten after having witnessed this election, this book may be for you... If you have ALWAYS known that the history which we have been taught just doesnâ ™t seem to add up, this book may also be for you. But I should warn you, once the scroll is unfurled, it can never be unread. The Order seems to be using the Book of Revelation (outlining the apocalypse) as a script. I will prove to you that even 9/11 is predicted uncannily in Revelation! (Donâ ™t let the references to the Bible scare you off. It's only being mentioned for its romantic and historical value to The Order.) Prepare to read the esoteric epic of 'The Pirate Who Took Over The World,â ™ for which â ^The Da Vinci Codeâ ™ and â ^Chariots of the Godsâ ™ were created in order to preventâ ]. 'Sacred Scroll of Seven Seals.'

Good information in this book very interesting only thing throws you off a bit is the book is a little all

over the place at times if the information was new to me I'd give it 5 stars but I've been reading about secret societies and the Bible for years so I was kind of looking for a lot of new info which it had but not much but overall a good book

Difficult and slow read. Jumps around in history way to much and never really makes his point.

Interesting book and thought provoking. He has done a lot of research to prove his point. A good book to read to understand a lot of what is happening in our world.

This book was very detailed but the chapters were not organized in a chronological order. I learned new information regarding the Bible and the Catholic Church.

I like the information given and how its followed up with links, pics, etc;; so you can do your own research as well. Well written and keeps you wanting more at the same time can be to "much

Wow

Will not be disappointed if you read this book. If you like to read about the past and what really happened.

What a bunch of crap. I really can't think of anything else to say.
