Customer Reviews

This is not just a book of spells. Cross discusses occult theory and breaks down the motivation for magick spells. There are numerous spells in the book, but the real benefit I got from this book is that it opened up my imagination to the ways I can perform other spells of my own design and how magick can fit into my life. Magick opens up possibilities for us, and these options give us power and the choice to live life fully as active participants. Do it.
