Timothy Corrigan is a lecturer at the University of Pennsylvania.

Timothy Corrigan, in the preface to "A Short Guide to Writing About Films, sixth edition," says, "Writing essays about films is, in short, one of the most sophisticated ways to respond to them." In this concise book, he lucidly explains how to write screen reports, movie reviews, as well as theoretical and critical essays on films. Here's a sample of his lucid writing. Defining terms often used in film study: *mise-en-scene* -- "the arrangement of the so-called theatrical elements before they are actually filmed; these include sets, lighting, costumes, and props

It's a very special book. As its name says is a guide to write about films and mr. Corrigan is very clear. His exposition of the situations a student must confront is made sistematically. As a text to use in class is ideal. I'm a teacher of this subject and it was amazing to find that many of the homeworks sugests by mr Corrigan in his book are good ideas to guide the students. Besides, the book offers several ways to read a film, some of them very important and so obvious that seems to be no necessary....

Great book.

Wow! I got an A+ in my film class. Great book for the new film student.

great help with writing reviews, especially for amateurs like me. It's an useful introductory course into a world of critiquing.

Glad I found this for class. I really didn't want to buy the book on Campus!

College book requirement. Interesting book. I majored in Political Science and this book is engaging and easy to read. If you like the topic, it helps a lot

One thing I can say is I enjoy a good film. O.K. if it moves I'll watch it. But until I read this book I really was just looking without seeing. It is nice to have this guide confirm what one knows as common sense. Probably because the guide is designed to take you from ground zero to a level of appreciation and allow you to convey your opinion intelligently. If you have an earlier edition you will still get the essence of the book. Newer editions add different resources and research information. Some of the highlights are: * A shot-by shot analysis of a sequence from the film "Potemkin" * Suggestions on using the Internet * Sample student writing Some contents: Writing about the Movies, Preparing to Watch and Preparing to Write, Film Terms and Topics, Six Approaches to writing about Film, Style and Structure in Writing, Researching the Movies, Manuscript Form. This guide is an eye opener.
