I am an English teacher constantly searching for books that will inspire a love for reading, and it seems that wholesome books for older elementary and junior high boys are the most difficult to find. Brady's Trapped in a Video Game is perfect for this group! As the narrator's voice becomes clear, the story is undoubtedly relatable, humorous, and engaging! When I finished the book, I found myself thinking "That's it?!" I'm sure I echo the sentiments of other readers when I say that I look forward to reading the next book in the series. I will definitely recommend this book to students in my own school!

My 9 (almost 10 year old) LOVES this book! He hasn't been much of a reader but this is the FIRST book he reads without prodding. He talks about it a lot and always tells me what happened. The chapters aren't too long or overwhelming for early chapter readers. An easy read. It's refreshing to

find a fun, adventure book without a lot of "dark" themes. A rare find!

Great book! My niece read it in two days and loved it!

My son loved it

Grandson enjoyed it.

My eight year old son just finished this book! He doesn't always like to read but, loves video games. He came downstairs and asked when book two was coming out! He says it is a 5 stars book :)

I was skeptical since I'm not a video gamer. However, I was pleasantly surprised. Dustin did a great job capturing the mindset of junior high boys, uncertainty, enthusiasm, boogers and all. This book draws you into the action with every page turn and leaves you wanting more. Looking forward to the sequel!!!

My son who had been a struggling reader loves this book! The last two nights he has read it at bedtime and we had had to make him set it down which has rarely happened. He is excited to read the next two.
