Synopsis

Sound Innovations for String Orchestra is a revolutionary new method that combines time-tested educational concepts, input from thousands of teachers, and advances in modern technology. Using solid pedagogy that follows state and national music education standards, the methods can be customized by teachers to use their own experiences in creating the best approach for their unique classroom. This title is available in SmartMusic.

Customer Reviews

I love this series for violin, the CD music is actual string quartet samples rather than the yucky midi files, dorky arrangements, or "elevator muzak" used in some instructional books. The music files are very helpful for developing your listening skills, intonation, and rhythm. I like how the skills are broken down, practiced,and blended with previous skills -- all demonstrated using stringed instruments! Finally!!

I like this method for students that have taken lessons on another instrument. The lessons move and the student is not bored.

Quick shipping and nice easy to understand book.

Jjust what the 6th grade class needed at a great cost

Perfect for both large ensembles or solo learners, is as it says on the tin. Very straightforward and orderly. Perfect condition and on time

bought for grandson.....its what they wanted at school...so I guess its okay!

Arrived in perfect condition

Very nice music book
