Morgan le Fay will make Jack and Annie masters of the tree house if only they can solve four riddles -- which will take four books, of course! "Dolphins at Daybreak begins the third set of four books in this magical (and increasingly popular) series! Jack and Annie are off in the Magic Tree House again, this time to a whole new world under the ocean. Complete with a giant octopus, a hungry

shark, and dolphins to the rescue, this Magic Tree House book delivers an underwater adventure kids can dream about.

With their strong characters, imaginative plots, and just the right dose of history or science, it's no wonder kids love Magic Tree House books.

This was a gift for great granddaughter, she started reading it immediately, hardly laid it down until she had read it completely. She loved it!! :) This is A good place to shop for these books... Would be nice if when ordering from same distributor that they could all be sent together in one package with one shipping fee... I would certainly order more books

We love Magic Treehouse in our home! the book arrived quickly and my 7 year old can't wait to read it! These books are fantastic for beginning chapter books, as she incorporates historical elements into her fictional characters. Jack and Annie are awesome role models, adventurous, studious and careful. We are working on getting the entire collection, because once my child outgrows them I can use them in my classroom.

My daughter adores Magic Tree House series. She reads through these like they're nothing and she is 9 years old. We found this series thanks to her first grade teacher a few years back. She's nearly read the entire series since. They are SO fun and full of magical creativeness.

These books were a gift for my 7 year old grandson. He loves to read. I was told about these books

by friends at work that have small children. My grandson was so thrilled with the four books he received. He had three books read the first day he received them. When he was telling me all about them, you could hear the excitement in his voice when he talked about all the different adventures. I will buy him more of the Magic Tree house book. Anyone that has children or grandchildren this is a great choice of books for them.

Still buying these books...for my granddaughter.
