An Introduction To Theology In Global Perspective (Theology In Global Perspectives)

Synopsis

Offers a comprehensive guide to doing theology as part of the Catholic ecclesial community in today's globalized world. *An Introduction to Theology in Global Perspective* emphasizes that theology is an activity, a process that is anchored in Scripture but interpreted by ecclesial tradition and the magisterium. This theology is rooted in the experience that divine is found in a sacramental world and community. This book also describes a systematic theology as reflection upon the church's central teachings on creation, sin, redemption, the Trinity, anthropology, ecclesiology, salvation, and eternal life. "A remarkable achievement. In this volume the reader benefits from a scholar's mastery of theological tradition, the clarity and insight of a brilliant teacher, the sophisticated global contextualization that comes from a lifelong commitment to Christian mission, and the humility of a committed spiritual pilgrim."--Richard R. Gaillardetz, University of Toledo

Customer Reviews

Stephen B. Bevans, SVD, is the Louis J. Luzbetak Professor of Theology and Culture, Catholic Theological Union, Chicago. His is author of *Models of Contextual Theology*, and with Roger P. Schroeder, *Constants in Context*.

Having attempted to use this book for an undergrad class, I can say with some confidence that it is a graduate student's introduction to the understanding of theology as a dynamic process within

diverse contexts. Due to his extensive travels and his decades of graduate level instruction, in these pages, we gain from Bevans' wealth of wisdom and experience. He breaks open the traditional areas of systematic theology in untraditional and refreshing ways that help budding theologians recognize that in "doing" theology, we understand our own perspective more fully and leave open the door for insights into the perspectives of others in different contexts. This is a constructive theological framework, historically grounded as well as revelatory and motivational.

The book arrived at the right time, so I am happy with this purchase.

Good condition

Thanks

In-depth study of theology from a global perspective.

Excellent!

Good

This is another wonderful book by Stephen Bevans. Very deep and thoughtful introduction book of theology. Provides reader wide range of understanding of theology in global perspective.
