Recommendations On The Transport Of Dangerous Goods: Model Regulations

Synopsis

The Model Regulations cover the classification of dangerous goods and their listing, the use, construction, testing and approval of packaging and portable tanks, and the consignment procedures (marking, labeling, placarding and documentation). They aim at ensuring a high level of safety by preventing accidents to persons and property and damage to the environment during transport and, providing at the same time, a uniform regulatory framework which can be applied worldwide for national or international transport by any mode. The amendments listed in this publication were adopted by the Committee at its sixth session (14 December 2012). The amendments listed include: Amendments to test series 7 for the classification as extremely insensitive explosive article; Amendments to test series 8 for the classification as ammonium nitrate emulsion or suspension or gel, intermediate for blasting explosives (ANE); Amendments to test series H

Book Information
