Age Range: 1 - 4 years

Grade Level: Preschool and up

Customer Reviews

Great book for younger kids. Nothing beats having your kid grab this book, sit in your lap, and then hear them giggle as you turn the pages while playing the animal sounds. I rate the book as follows: Pros: -Good quality farm animal sounds -Nice variety of farm animals just as pictured -The buttons work well without having to push too hard -Excellent pictures (colors, detail, etc...) -Nice thick pages for younger kids that tend to destroy regular paper pages Cons: No cons that I can think of yet.

The book is great -- it just doesn't last. I've just had the book 5 months and already the sound buttons no longer work even though we've kept the book in pristine condition. I've changed the batteries with brand new ones purchased on and it still doesn't work.

My 15 month olds loves pressing the buttons to hear the animal sounds. She is not too interested in

the content of the book ... perhaps as she gets older. It was mildly annoying in the car on a long trip because the volume is pretty loud but baby enjoyed it and sometimes that's all that matters!

Just bought this and another discovery kid button book for my 2 baby great-granddaughters. The baby (under a year old) that lives near us loves the book. She can push the buttons. This board book seems very sturdy and all of the buttons work great. The animal sounds are real. I would highly recommend this book and all of the other Discovery Kids Button books!

Cute book but the back page was then almost all the way off and half the sounds didn't work

My son absolutely loves this book, between my husband and I we read this book over 5 times a night. He loves animals and hearing the noises they make. He's starting to copy the sounds after he hears them. Love this book!

Love this book my almost two year old isn't quite talking yet but he mocks animal sounds such as saying moo when he sees cows so to encourage him to keep going I got this to teach him more sounds and he loves it. I like the pictures and the words inside highly recommend for little ones.

My son is 16 month and has loved this since we got it a month ago. I do a toy rotation every week and this book comes up in rotation only once a month. It is the first one he grabs. The pictures are a combination of illustrations and real pics with a fact or two about each animal on each page. Each page features one animal in their natural setting. Cute and functional to add to my wee one's fascination with farm animals and the world around him.
