Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

Very good. Great for western flutes. Some tunes go into low register not achieveable with most dizi.

Horrible sounds like a high school kid in basic music class recorded it. I can't believe this person gets away with selling it! What a RIPOFF !!

Already loved an earlier publication without the CD, hearing dizi and flute versions of each piece is inspiring and helpful.

I can't play anything in it yet, and have not listened to the CD yet, but the book is nice and came as promised. The introduction is helpful. I hope to be able to play at least 1 song from this with time, patience, practice and learning.

not very well written unless u have studied this style of music very difficult to play to may embellishment not well written

a question:what does "corrado cristaldi" in the review of this book that signals the link?["..."]...Cristaldi arranger corrado arpeggio quasi moto pdf drumset all time."Tank

Chinese Flute Solos: 15 Traditional and Contemporary Pieces With a CD of PerformancesIt's great that there's a book of Chinese flute music. These range from easier to more difficult and the book has a CD that has each piece played first by a western transverse flute, then by a Dizi--the Chinese transverse flute that has an extra membrane-covered hole that lends a soft buzz to the notes. The dizi solos are somewhat more complex, with more ornamentation than attempted by the western flute. The pieces are beautiful either way.I have a bass dizi in the key of G and was glad to find some suitable music for it.

Challenging flute solos! I bought this one for a friend and I'm glad it now comes with a CD to get an idea of the sound you need to get. I first purchased this book after studying chinese flute in Shanghai, otherwise I wouldn't have known what all the little grace notes and such were trying to achieve.
