EXCELLENT TRUTH ON MARGARET SANGER.....the founder of Planned Parenthood

This is a very important book and corrective to the fawning accolades given the founder of Planned Parenthood. Mr. Grant gives a brief over-view of her life. While he never entirely succeeds in establishing a firm link between her personal life (decadent however it may have been) and her (and her organization's) mission, still it says something about the latter if the former is corrupt. Obviously your views on faith and abortion will color one's acceptance/rejection of this book, but the big thing here is her quotes, which can't be refuted so easily, and which reveal an ugly soul inside. Highly recommended.

Every American should read who Margaret Sanger is-----diabolical. dmr.

This is a helpful book giving the historical background to Planned Parenthood and the mind set of the people who first pushed the abortion agenda

Incredibly empowering to know the truth. No wonder this book has been ban by many liberayl run

institutions, including libraries.

Well written and very timely.

Very informative... and revealing

This is an excellent primer and succinct summary of the truth about the origins of "Planned Parenthood." Anyone who wants to know the truth about America's disgraceful abortion mills, should begin with this book. You can trust Grant to tell you the truth, in contrast to the communist propaganda we usually get fed! Thank you George!
