While learning to play electric slide guitar, after having found some tabs of Duane Allman I decided it would be better to start off with something easier. Way back in the day, high-testosterone solos were not the thing, and I just wanted to get some riffs to practice on. So I looked into Elmore James. Elmore James is the man that so many people have copied from Hound Dog Taylor, Duane Allman and early Fleetwood Mac to George Thorogood and Lightnin' Guy Verlinde. No question that this man has earned tremendous respect among others who practice this craft. This book provides the guitar tab for more than a few of Elmore's songs including Bobby's Rock, Madison Blues and Hawaiian Boogie. The tuning for each song is also provided, and there is a small section that describes Elmore James' style.

Really good music book for the basics to get into Elmore James stuff.

Wish it had more of the backing (rhythm guitar, etc.) but it's a really good book. Nice intro and song

notes.

one of the few books you can get that is mostly in open D slide. Easy to read and understand

Cool songs with great transcriptions. I went from slide zero to slide hero in just a few days working through Elmore's licks. Definitely recommend this book to anyone wanting to learn old school slide guitar.

Well, I thought it was buying a biography - but received a crappy tutorial book instead (I'm a slide guitar player myself and don't need a book this weak to explain Elmore's stuff). Well, I can only blame myself! Should have read the book presentation in more detail.
