I Am #12: LeBron James

Synopsis

I am basketball's biggest superstar--I am LeBron James. LeBron James was the MVP of the 2013 basketball season and he is one of the best basketball players of all time. His accomplishments on and off the court will appeal to a wide audience-especially boys. He's the perfect person to lead with as the I AM series expands to include more current subjects. The updated I AM series features full-color illustrated covers, and a mix of photos and illustrations throughout the interiors. A timeline, an introduction to the people you'll meet in the book, maps, sidebars, and a top ten list of important things to know help young readers understand the text and align the series with Common Core State Standards.

Praise for I AM: GEORGE LUCAS This easy-to-read title contains enough information about filmmaker George Lucas to encourage young readers to follow in his footsteps and possibly create their own films and studios. The father of blockbuster cinema series such as Star Wars and Indiana Jones, not to mention the music-filled American Graffiti, this talented, imaginative man somehow managed to make films his own way without compromising his vision. In a profession often dominated by connections, this quintessential outsider managed to do things his own way, staying

true to his own vision for his films. Fans will enjoy seeing the photographs of a young Lucas as well as the lines of moviegoers waiting for tickets to his film as well as reading about his family, upbringing, and his struggles and failures as well as his successes. It's interesting to learn about his single-mindedness and creativity. -Booklist

Grace Norwich has written many books for young readers on a variety of topics, including health, fashion, animals, and more. She lives in Brooklyn, New York.

I love any book that gets my son excited to read. This is one that he even asked for for his birthday. It was a very easy read for him so he was able to read the whole thing in one day. Also, we both learned a lot about LeBron James. It was full of interesting facts about him, I even found myself sharing a lot of the things I learned about him with other people. If you are looking for a way to get your young son excited about reading this is a good book for that. My son tends to be more excited about sports than reading, so it is fun to find books that he is passionate about. Pictures in the book are very good, too. Very fun book.

purchased for 14 yr old great grandson. I was interested so I read it before gifting the book. He and I were both impressed with LeBron's desire to represent citizenship, values and concern for others. He is a remarkable young man with enormous talent and an enormous heart

My grandson was only mildly interested in the book. He is 10 and loves basketball.

I bought this book for a student who hates reading. He finished it in a week and asked for another book to read right after! Any book that can motivate a student to read is deserving of way more than five stars.

As with all the books in this series, it was informative and interesting to my six year old granddaughter.

My son really enjoyed reading this. It was informative and an easy read for my son who is going into third grade.

Nice shirt but it runs small

Gave it to my grandson and he enjoy reading the book. On his own did up a report on the computer to give it to his teacher.
